Measurements in mm.

| NW | Diam. | A | B | C | D | Weight in kg. |
|------|-------|------|------|-----|-----|---------------|
| 600 | 600 | 900 | 950 | 450 | 180 | 30 |
| 700 | 700 | 1000 | 1050 | 500 | 205 | 37 |
| 800 | 800 | 1100 | 1150 | 550 | 230 | 46 |
| 900 | 900 | 1200 | 1250 | 600 | 255 | 55 |
| 1000 | 1000 | 1300 | 1350 | 650 | 280 | 65 |
| 1100 | 1100 | 1400 | 1450 | 700 | 305 | 76 |
| 1200 | 1200 | 1500 | 1550 | 750 | 330 | 88 |

- Application** : End valve for surface water, sewers and other aggressive environments.
: Suitable for wall mounting (concrete) with fixing bolts.
- Max. pressure** : 5 Metres head of water (for a short period).
- Materials** : Valve- and backplate HDPE.
: Solid axle and ballast weight stainless steel 316.
: Valve seal EPDM compound is attached on the rear of the flapvalve.
- Interface** : EPDM compound between valve and wall.
- Mounting** : Chemical anchor bolts or pre-cast anchors.
- Remarks** : Larger sizes and special shapes can be produced upon request.
